Sound 2020 Half-year Results

- Operating net profit gratifyingly stable despite challenging environment
- Market value of investment real estate with revaluation gains at previous year's level
- Projects & Development with respectable results and high margins in third-party activities
- Accounting changeover from IFRS to Swiss GAAP FER
- A positive net income expected for the entire 2020 financial year

Due to the corona crisis in the first half of 2020, Allreal was confronted with unusual problems that required quick and pragmatic action. Owing to the rapid change of social and economic life, fast and uncomplicated solutions were needed concerning both rental income from yield-producing properties and Project & Development's project business. Despite these challenges, the company achieved a very sound performance in the period under review. Allreal reported net profit including revaluation gains of CHF 86.4 million resulting from the rental of real estate and activities of the Projects & Development division (1st half 2019: CHF 89.2 million). The result is again characterised by a revaluation of the portfolio by CHF 27.7 million (1st half 2019: CHF 30.2 million).

Compared to the result reported for the same period the previous year, net profit decreased by only 3.1 percent, essentially due to positive tax-related one-off effects of CHF 3.0 million arising the previous year.

Both divisions, Real Estate and Projects & Development, made a positive contribution to operating net income of CHF 63.0 million in the period under review. Compared to the previous year, this represents a decline of 6.5 percent (1st half 2019: CHF 67.4 million).

On the cut-off date, Allreal's share closed at CHF 187.60, or 2.5 percent below the closing price on 31 December 2019. Compared to industry indices and the overall market, the share price developed well. Including profit distribution in April 2020 of CHF 6.75 per share, the overall performance in the period under review is reported as 1.0 percent. Market capitalisation on the cut-off date amounted to CHF 2.98 billion.

Real Estate division again with convincing results

The Real Estate division achieved a strong result despite the unusual situation brought about by the corona crisis and the connected lockdown.

Rental income in the first half of 2020 decreased by CHF 1.8 million to CHF 100.1 million (1st half 2019: CHF 101.9 million). Portfolio changes made in the previous year and owner occupation by Allreal of the office building on Lindbergh-Allee 1 in Glattpark ZH from the beginning of the current year account for CHF 1.3 million of the discrepancy.

¹ Previous year's figures restated

In the course of the corona crisis, Allreal acceded to various requests for rent deferment quickly and unbureaucratically. In this regard, tenants renting commercial space from Allreal and affected most severely were waived up to two months' rent within a period of only a few weeks on an individual basis and under private law. From today's perspective, the associated loss of earnings amounted to about CHF 1.4 million.

Cumulated vacancy rate continued to decline in the first half of 2020 and amounted to a record-low 1.5 percent on the cut-off date (31.12.2019: 2.2%). Several successful rental agreements contributed to this positive development. For instance, rental agreements were signed for available space in the Baarermatte commercial building in Baar ZG. In addition, the relocation of Allreal's own headquarters to Lindbergh-Allee 1 in Glattpark ZH contributed toward the decline. In terms of residential space, the last available apartments on Fangletenstrasse in Bülach ZH were successfully rented for the first time. Based on the low number of rental agreements up for renewal and the high quality of facility management, Allreal expects the vacancy rate for the entire year to remain low.

Direct expenses for yield-producing properties in the period under review amounted to CHF 13.2 million, representing an expense rate of 13.2 percent (1st half 2019: CHF 11.4 million / 11.2%). The expected increase compared to the previous year is due to a higher number of ongoing refurbishment projects.

Despite the higher real estate expenses, net yield of yield-producing properties amounted to excellent 4.1 percent (1st half 2019: 4.4%).

The portfolio of investment real estate remained constant in the period under review. On the cut-off date it consisted of 64 yield-producing properties (21 residential and 43 commercial properties) and 2 investment real estate properties under construction.

The valuation of the 66 investment real estate properties carried out by an external real estate valuer on 30 June 2020 resulted in an appreciation of CHF 27.7 million. Of this amount, CHF 10.2 million refers to the portfolio of yield-producing properties and CHF 17.5 million to investment real estate under construction.

The value increase of the portfolio is due mainly to lower discount rates for investment real estate under construction. Work on the residential project on Grünhof-Areal in Zurich Aussersihl and on the office building on Hardstrasse 301 in Zurich-West is progressing according to schedule. The two properties with a target income of CHF 6.6 million in total enjoy a high preoccupancy rate and will be transferred to the portfolio of yield-producing properties within the coming twelve months.

The total value of the portfolio of investment real estate on the cut-off date amounted to CHF 4.39 billion (31.12. 2019: CHF 4.34 billion). The market value of the residential properties reported in the portfolio of yield-producing properties amounted to CHF 1.01 billion and that of commercial buildings to CHF 3.24 billion. The market value of investment real estate under construction amounted to CHF 134.6 million.

The Real Estate division reported net income for the period under review excluding revaluation effect of CHF 58.6 million (1st half 2019: CHF 63.0 million). This corresponds to a share of the Group's operating net income of 92.4 percent.

Stable development of Projects & Development division despite project postponements

In the Projects & Development division, Allreal provides services concerning the development and the realisation of projects for third parties, buys and sells development real estate, and plans and implements own projects. Income from Projects & Development in the first half of 2020 amounted to CHF 24.6 million (1st half 2019: CHF 28.1 million). This represents an expected decline of 12.5 percent compared to the same period the previous year. On the one hand, income from Realisation Projects & Development declined, compared to the first half 2019, due partly to project postponements owing to the corona crisis. On the other hand, income from the sale of development real estate was reported clearly lower.

In the period under review, Allreal strengthened the division by appointing Simon Räsamen as new Head Realisation. He joined Group Management and is responsible for the Realisation department with effect from 1 June 2020.

Income from Realisation Projects & Development for the first half 2020 amounted to CHF 18.8 million, a decline of 9.2 percent compared to the previous year (1st half 2019: CHF 20.7 million). The gross margin reported from the development and implementation of projects for third parties amounted to a high 13.8 percent (1st half 2019: 14.0%).

Gross margin third-party projects
Projects & Development division
in percent

Income resulting from the sale of residential real estate in Zufikon AG and Bülach ZH amounted to CHF 1.6 million (1st half 2019: CHF 3.4 million). Demand for residential ownership remains excellent. For the project on Florenstrasse in Winterthur ZH, despite limitations brought about by the lockdown, Allreal is in possession of letters of intent for 44 of the 51 condominiums. Following the cut-off date, Allreal acquired land suitable for residential construction and attractive potential for development for CHF 31.5 million located at Badenerstrasse 501–505 in Zurich Albisrieden.

Operating expense of the Projects & Development division of CHF 22.9 million for the first half 2020 was reported about 5.8 percent below the comparable amount of the previous year (1st half 2019: CHF 24.3 million).

The Development department again made a significant contribution to the Group's successful and profitable business activity by means of own and third-party projects, the participation in several project competitions and the demanding search for suitable land with promising development potential.

¹ Previous year's figures restated

The large third-party projects are mostly proceeding according to schedule. Allreal is implementing a project for Helvetia Insurance Group comprising 13 five-storey apartment buildings and a total of 180 rental units plus an underground parking garage on Bellariarain in Zurich Wollishofen. The construction sum amounts to about CHF 60 million. Transfer to the owners is scheduled for end of this year.

In Glattbrugg ZH, Allreal is implementing a three-storey data centre for Interxion in the Bäuler industrial area comprising 7,132 square metres of useful space. The sum of the construction trades in Allreal's responsibility amounts to about CHF 30 million.

Construction work on the Letzi Turm project in Zurich Altstetten commenced at the beginning of summer. In the course of the coming two years, Allreal as total contractor will realise two 70-metre residential high-rise buildings for Swiss Federal Railways comprising 178 rental units. The order volume is about CHF 70 million.

Project volume completed by the Realisation department in the first half of 2020 amounted to CHF 178.6 million (1st half 2019: CHF 178.9 million). Of this amount, CHF 135.7 million, or 76.0 percent, referred to third-party projects and CHF 42.9 million, or 24.0 percent, to own projects for sale to third parties or for the own portfolio. Allreal expects the volume of projects completed in the second half of 2020 to increase.

The order backlog secured on the cut-off date amounts to about CHF 772 million. In the period under review, Allreal recorded a gratifying order intake of about CHF 131 million, ensuring capacity utilisation for about 24 months.

The Projects & Development division reported net income of CHF 4.8 million for the period under review (1st half 2019: CHF 5.9 million). This corresponds to a 7.6 percent share in the Group's net income.

Long-term and well secured financing

Financial liability as per 30 June 2020 grew by CHF 80.8 million to CHF 2.08 billion (31.12.2019: CHF 2.00 billion). Of this amount, bond issues account for 57 percent, fixed mortgage loans for 29 percent and fixed advances for 14 percent.

On the cut-off date, the average interest rate for financial debt amounted to 0.83 percent, or five base points below the comparable value on 31 December 2019. The average duration of the fixed-interest period on the cut-off date amounted to 49 months.

Credit limits available short-term on the cut-off date amounted to CHF 653 million. They continue to provide the company with a high level of entrepreneurial freedom and space for financial manoeuvre.

As per 30 June 2020, Allreal's equity ratio amounted to 48.3 percent, net gearing to 87.2 percent and interest coverage ratio to 10.9 (31.12.2019: 49.7%/83.8%/10.2).

Allreal reports according to Swiss GAAP FER as at 1 January 2020, reactively (previously IFRS). As a result, the company simplifies its financial reporting while maintaining high transparency and significance.

Outlook on the 2020 financial year

Based on the 2020 half-year financial statements, Allreal is confident to report good results for the entire 2020 financial year, despite great uncertainties about further economic development.

Owing to the low number of commercial leases up for extension or renewal, the Real Estate division expects the vacancy rate to remain low. The income situation will remain predictable even when taking into consideration constantly developing real estate expenses. The loss of earnings as a result of COVID-19 is, from today's perspective, acceptable, and operating net income for the entire financial year close to that reported for the previous year is feasible.

While pressure on prices and margins remains a determining issue in Projects & Development, the division expects to report stable development of results. This expectation is based on a slight growth in project volume in both of its two departments, Development and Realisation, due to a high order backlog and full capacity utilisation. Consistent focus on profitable projects for discerning and quality-conscious customers and for the own portfolio continues to ensure a profitable business activity.

The insecurities which emerged at the outbreak of the corona crisis concerning short-term business development can currently be assessed more reliably. Allreal expects operating net profit for the entire financial year to be reported below that of the record result for 2019, but higher than in 2018, owing to lower profits derived from development real estate and delays in the progress of individual projects.

The Board of Directors and Group Management express their gratitude to all employees for their contribution in these extraordinary and demanding times and to customers and shareholders for their trust and support.

¹ The consolidated half-year financial statements 2020 were prepared in accordance with Swiss GAAP FER for the first time. The previous year's figures have been restated accordingly, see section 2 of the selected notes

² EBIT less revaluation gains in percent of income from business activity (balance of operating income, direct operating expenses, capitalised company-produced assets, and earnings from sale of investment real estate)

³ Assignment of equity to individual segments corresponds to internal financial reporting guidelines requiring an equity ratio of 40% for the Projects & Development division; financial and tax liabilities will be assigned accordingly

Selected notes

1 Basic principles

1.1 Presentation of accounts

Since 1 January 2020, the financial statements of Allreal Group have been prepared according to Swiss GAAP FER (FER). The consolidated half-year financial statements 2020 were prepared in accordance with Swiss GAAP FER 31 “Complementary recommendation for listed companies” and are compatible with the Listing Rules as well as Article 17 of the Directive on Financial Reporting (DFR) of SIX Swiss Exchange. The effects of the change in accounting standards from IFRS to FER on the principles of recognition and valuation are outlined under section 2.

1.2 Scope of consolidation

The scope of consolidation remained unchanged in the first half of 2020.

1.3 Valuation uncertainties

Investment real estate

Owing to the coronavirus (COVID-19), the evaluation of the market value of investment real estate is subject to increased uncertainty. Accordingly, external real estate valuer JLL issued the following disclosure:

“The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a ‘Global Pandemic’ on the 11th March 2020, has impacted global financial markets. Travel restrictions have been implemented by many countries.

Market activity is being impacted in many sectors. As at the valuation date, we consider that we can attach less weight to previous market evidence for comparison purposes, to inform opinions of value. Indeed, the current response to COVID-19 means that we are faced with an unprecedented set of circumstances on which to base a judgement.

Our valuations are therefore reported on the basis of ‘material valuation uncertainty’ as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to our valuation than would normally be the case. Given the unknown future impact that COVID-19 might have on the real estate market, we recommend that you keep the valuations of under frequent review.

For the avoidance of doubt, the inclusion of the ‘material valuation uncertainty’ declaration above does not mean that the valuation cannot be relied upon. Rather, the phrase is used in order to be clear and transparent with all parties, in a professional manner that – in the current extraordinary circumstances – less certainty can be attached to the valuation than would otherwise be the case. The material uncertainty clause is a disclosure, not a disclaimer.

Although we reflect our general understanding of the status of the tenants based on publicly available information which may not be up to date, we are not qualified to advise you on the financial standing of the tenants. Based on the information currently available, we assume that the tenants have sufficient covenant status.

With the ongoing outbreak of COVID-19 virus, uncertain trading and credit market conditions may lead to rapid changes in covenant strength and/or sentiment.”

2 Restatement to Swiss GAAP FER

The effects that the change in accounting standards from IFRS to Swiss GAAP FER has on the principles of recognition and valuation are outlined in the following. The principles which remain unaffected are not shown. The effects on the consolidated financial statements and on consolidated equity are stated under section 2.8.

2.1 Earnings from renting investment real estate / investment real estate

Income from renting investment real estate includes net rental income after deduction of vacancy losses, losses due to bad debts and (new) deduction of ground rent. Under IFRS, ground rent was capitalised as a right-of-use asset and reported under yield-producing properties. Changes in right-of-use assets were recognised under gains from the revaluation of investment real estate. The change in recognition of ground rent obviates the need to capitalise it as a right-of-use asset and report it under yield-producing properties as per IFRS.

2.2 Employee pension plans

Under IFRS, pension funds were classed as defined benefit plans, with plan assets recognised at fair value and liabilities valued using the projected unit credit method.

Pension expenses comprised a past service and a net interest component which were recognised under personnel expenses, as well as a revaluation component which contains actuarial gains and losses and was recognised through other comprehensive income under changes in the pension fund.

Pension plans are now recognised in accordance with Swiss GAAP FER 16 “Pension benefit obligations”. Accordingly, actual expenditure for the pension fund is charged to personnel expenses. In application of the new standard, any economic benefit or obligation existing on the cut-off date must be taken to the balance sheet. The previous practice of reporting the net position “Pension plan assets” in the balance sheet under financial assets no longer applies.

2.3 Other operating expenses/other property, plant and equipment

Rental expenses from long-term rental agreements for offices and parking spaces are now recognised as operating leases and charged to income under other operating expenses. Under IFRS, these obligations were capitalised as right-of-use assets under the position “Other property, plant and equipment” and depreciated over the term. They are no longer capitalised as right-of-use assets under FER.

2.4 Financial expenses/Derivative financial instruments

In December 2016, Allreal terminated interest swaps (swaps) early. Their remaining negative replacement value (after deferred tax) was reported in the hedging reserve and under IFRS released to the income statement over the original residual term to maturity of the swaps.

Under FER, the balance of negative hedging reserves was allocated in the opening balance sheet of 1 January 2019 to retained earnings and has not been charged to the consolidated statement of comprehensive income since 2019.

2.5 Development real estate

Development real estate comprises land reserves, buildings under construction, and completed properties. Under FER, accrued investment costs (land and project costs) for notarised units are now no longer reported as contract assets or liabilities but – as buildings under construction – fall under development real estate.

2.6 Short-term receivables and liabilities

Receivables from construction activities undertaken on behalf of third parties are recognised according to the net principle, i.e. payments on account received from clients and partial settlements of accounts arising from the construction activities are offset against each other (order balances). In accordance with IFRS, positive net positions were previously reported as contract assets and negative net positions as contract liabilities. Now, under FER, order balances are reported as trade receivables or trade payables accordingly.

2.7 Lease liabilities

In connection with the two types of right-of-use assets – i.e. arising from ground rent and from long-term rental agreements – a long- and a short-term lease liability was recognised under IFRS. Under FER, rental expenses and ground rent are charged to the income statement as incurred, and no right-of-use assets are capitalised. Accordingly, there are no long- and short-term lease liabilities to recognise.

2.8 Reconciliation of net profit and equity

The changes in principles of accounting following adoption of FER were applied retroactively to 1 January 2019 with a restatement of the previous year's figures. The effects of the change from IFRS to FER on net profit and equity are shown in the following tables.

Reconciliation of net profit from IFRS to FER

CHF million	6 months 01.01.–30.06.2019	12 months 01.01.–31.12.2019
IFRS net profit	85.1	234.8
Changes in employee benefits	0.5	1.5
Expense for derivatives	4.5	8.9
Income from renting investment real estate	-0.7	-1.3
Other operating expenses	-1.6	-4.4

As at 31 December 2019 according to FER	15.9	628.0	-7.1	0.0	359.7	1 356.1	2 352.6

3 Income from renting investment real estate

CHF million	1 st half-year 2020	1 st half-year 2019 ¹
Rental income from residential properties	18.3	17.5
Rental income from commercial properties	81.8	84.4
Income from renting investment real estate	100.1	101.9

¹ Previous year's figures restated, see section 2

The accumulated vacancy rate for the first half of 2020 amounted to a total of 1.5% of projected rental income (1st half-year 2019: 1.9%), broken down into 2.1% for residential properties and 1.3% for commercial properties (1st half-year 2019: 3.8% and 1.5%).

4 Earnings from Projects & Development division

CHF million	1 st half-year 2020	1 st half-year 2019
Income from realisation Projects & Development	135.7	147.4
Direct expenses from realisation Projects & Development	-116.9	-126.7
Earnings from realisation Projects & Development	18.8	20.7
Income from sales Development	12.1	22.4
Direct expenses from sales Development	-10.5	-19.0
Income from sales Development	1.6	3.4
Capitalised company-produced assets	3.3	3.4
Diverse income	0.9	0.6
Earnings from Projects & Development division	24.6	28.1

Earnings from realisation Projects & Development consists of architects' and project & development fees (CHF 10.4 million) and earnings from construction activity (CHF 11.1 million) (1st half-year 2019: CHF 11.1 million and CHF 12.1 million, respectively). This contrasts with directly offset sales deductions (CHF 2.7 million) (1st half-year 2019: CHF 2.5 million).

Income from sales Development is attributable to revenue from the projects Soli-strasse in Bülach ZH (CHF 4.2 million) and Alter Züriweg in Zufikon AG (CHF 7.9 million), resulting in gains on sales of CHF 1.6 million.

5 Direct expenses for rented investment real estate

CHF million	1 st half-year 2020	1 st half-year 2019
Administrative and operating expenses, residential real estate	-0.9	-0.9
Administrative and operating expenses, commercial real estate	-2.6	-2.7
Maintenance and repair expenses, residential real estate	-2.4	-1.6
Maintenance and repair expenses, commercial real estate	-7.3	-6.2
Real estate expenses	-13.2	-11.4

6 Earnings from revaluation of investment real estate

CHF million	1 st half-year 2020	1 st half-year 2019 ¹
Higher valuation of yield-producing properties	23.1	39.3
Higher valuation of investment real estate under construction	17.5	5.9
Lower valuation of yield-producing properties	-12.9	-15.0
Lower valuation of investment real estate under construction	0.0	0.0
Earnings from revaluation of investment real estate	27.7	30.2

¹ Previous year's figures restated, see section 2

CHF 3.9 million of the higher valuation of yield-producing properties relates to residential real estate and CHF 19.2 million to commercial real estate (1st half-year 2019: CHF 13.6 million and CHF 25.7 million, respectively). CHF 0.0 million of the lower valuation of yield-producing properties relates to residential real estate and CHF 12.9 million to commercial real estate (1st half-year 2019: CHF 0.7 million and CHF 14.3 million, respectively).

The average discount rates as at 30 June 2020 for the entire portfolio of yield-producing properties amount to 3.92% (31.12. 2019: 3.93%). The average capitalisation rates as at 30 June 2020 amount to 3.43% (31.12. 2019: 3.44%).

As in the previous year, Jones Lang LaSalle AG acts as the real estate valuer on a contract basis.

7 Financial expense

CHF million	1 st half-year 2020	1 st half-year 2019 ¹
Interest expense for bond issues	-5.2	-5.5
Interest expense payable to banks/insurance companies for liabilities	-4.0	-4.2
Capitalised building loan interest	0.1	0.1
Financial expense	-9.1	-9.6

¹ Previous year's figures restated, see section 2

8 Earnings per share / net asset value (NAV) per share

	1 st half-year 2020	1 st half-year 2019 ¹
Number of outstanding shares as at 1 January (in thousands)	15 897	15 886
Change in holdings of treasury shares (in thousands)	3	1
Number of outstanding shares as at cut-off date (in thousands)	15 900	15 887
Average number of outstanding shares (in thousands)	15 898	15 886
Net profit excl. revaluation effect (in CHF million)	63.0	67.4
Earnings from revaluation of investment real estate (in CHF million)	27.7	30.2
Deferred taxes on revaluation gains (in CHF million)	-4.3	-8.4
Net profit incl. revaluation effect (in CHF million)	86.4	89.2
Earnings per share incl. revaluation effect (CHF)	5.43	5.61
Earnings per share excl. revaluation effect (CHF)	3.96	4.26
Diluted earnings per share		
— incl. revaluation effect (CHF)	5.43	5.61
— excl. revaluation effect (CHF)	3.96	4.25

¹ Previous year's figures restated, see section 2

The share-based remuneration of members of Group Management has the effect of diluting the earnings per share. For this calculation, the average number of outstanding shares increases from 15,898,289 to 15,899,887 shares.

	30.06.2020	31.12.2019 ¹
Outstanding shares (in thousands) on cut-off date	15 900	15 887
Equity on cut-off date (CHF million)	2 332.1	2 352.6
Net asset value (NAV) per share after deferred taxes (CHF)	146.70	148.10
Equity plus provisions for deferred taxes less deferred tax assets (CHF million)	2 594.8	2 603.2
Net asset value (NAV) per share before deferred taxes (CHF)	163.20	163.85

¹ Previous year's figures restated, see section 2

9 Investment real estate

CHF million	30.06.2020	31.12.2019 ¹
Residential real estate	1 014.2	1 010.2

¹ As per 30.06.2020 valuation

² Building and land costs

Grünhof site, Zurich

New-build six-floor apartment building with 80 rental apartments in the inner courtyard (previously used for commercial purposes) plus realisation of a replacement new-build containing eight rental apartments in addition to office and commercial space on Badenerstrasse. The rentable residential, office and commercial area in the new-builds on the 7,088 square metre plot in Zurich Aussersihl is 8,022 square metres in total. The project is being built by the Projects & Development division and upon completion (prospectively as at 1 December 2020 and 1 February 2021) will be reported in the portfolio of yield-producing properties. For the market valuation as at the balance sheet cut-off date, nominal discount and capitalisation rates of 3.3/3.5% and 2.8/3.0%, respectively, were applied (31.12.2019: 3.80/4.00% and 3.30/3.50%).

Hardstrasse 301, Zurich

New-build six-floor commercial building with lettable floor space of 5,800 square metres, comprising 4,900 square metres of office space on the upper floors, 580 square metres of commercial space on the ground floor, 320 square metres of storage area in the basement as well as an underground garage with 21 parking spaces. The project is being built by the Projects & Development division and, upon completion in 2020, will be reported in the portfolio of yield-producing properties. For the market valuation as at the balance sheet cut-off date, nominal discount and capitalisation rates of 3.90% and 3.40%, respectively, were applied (31.12.2019: 4.30% and 3.80%).

The two investment real estate properties under construction are 100% solely owned by Allreal.

10 Development real estate

¹ Land and building costs

² Book value includes acquisition costs for the land 100% owned by Allreal and accrued project costs of third parties

Florenstrasse, Winterthur ZH

Eight new-build apartment buildings with a total of 51 condominiums and 74 underground parking spaces with lettable floor space (100% residential) of 6,232 square metres. It is being built by Allreal Generalunternehmung AG and is scheduled for completion in 2022. As at 30 June 2020, contracts of sale had been notarised for 0 of the 51 residential units and 44 had been reserved.

Alter Züriweg, Zufikon AG

Two connected new-build stepped apartment blocks with a total of 20 condominiums and 30 underground parking spaces with lettable floor space (100% residential) of 2,007 square metres. It is being built by Allreal Generalunternehmung AG and is scheduled for completion in 2021. As at 30 June 2020, contracts of sale had been notarised for 17 of the 20 residential units, 0 of which with transfer of ownership, and 2 had been reserved.

11 Share capital

As at the balance sheet cut-off date, the share capital of Allreal Holding AG comprises 15,942,821 registered shares with a par value of CHF 1.00 each. Each share carries one vote and confers entitlement to attend the general meeting if entered in the share register.

Shareholdings developed as follows:

Number of shares	Shares issued	Treasury shares	Outstanding shares
2019			
As at 1 January	15 942 821	57 055	15 913 293
Purchase treasury shares		254	
Sale treasury shares		-10 177	
Share-based reimbursement		-1 424	
As at 31 December	15 942 821	45 708	15 897 113
2020			
As at 1 January	15 942 821	45 708	15 897 113
Purchase treasury shares		-	
Sale treasury shares		-1 191	
Share-based reimbursement		-1 392	
As at 30 June	15 942 821	43 125	15 899 696

On 30 June 2020, Allreal held 43,125 treasury shares (31.12.2019: 45,708 shares). The average purchase price per share stands at CHF 155.40 (31.12.2019: CHF 155.40). The total purchase price is deducted from consolidated equity.

The Board of Directors is authorised by the annual general meeting to increase the share capital – excluding the subscription rights of shareholders as applicable – until 24 April 2022 to acquire businesses, business units, participating interests or real estate through an exchange of shares, for financing or refinancing the acquisition of businesses, business units, participating interests or investment projects, or for the purpose of an international placement of shares worth up to CHF 1,000,000 by issuing up to 1,000,000 registered shares each with a par value of CHF 1.00 (authorised capital).

For the purpose of issuing convertible bonds, warrant bonds or other financial instruments, there exists – excluding the subscription rights of shareholders – conditional capital of up to CHF 1,000,000 through the issue of up to 1,000,000 registered shares with a nominal value of CHF 1.00 each. Bearers of the convertible and/or warrant bonds are entitled to subscribe to the new shares.

Further, Allreal Holding AG has conditional capital of CHF 0.2 million (200,000 registered shares at a par value of CHF 1.00 each) at its disposal for the purpose of issuing options to the members of the Board of Directors and management.

The annual general meeting of Allreal Holding AG of 24 April 2020 voted in favour of a distribution of CHF 6.75 per share, corresponding to a total amount of CHF 107.3 million. Of this amount, CHF 3.25 per share was paid out in the form of a repayment of reserves from contribution of capital and CHF 3.50 per share as a dividend.

12 Borrowings

Maturity of financial liabilities (capital lock-up at nominal values)

CHF million	< 1 year	1–3 years	3–5 years	>5 years	Total
As at 31.12.2019					
Borrowings	428.0	336.3	298.0	940.0	2 002.3
Total in %	21.4	16.8	14.9	46.9	100.0
As at 30.06.2020					
Borrowings	630.2	362.8	250.0	840.0	2 083.0
Total in %	30.3	17.4	12.0	40.3	100.0

The financial liabilities consist of loans secured by mortgage (fixed advances and fixed-rate mortgages) and of bond issues. The bank loans in the form of fixed advances are extended on a rolling basis.

The average interest lock-in period for all financial liabilities decreased to 49 months as at the balance sheet cut-off date (31.12.2019: 56 months).

In the first half of 2020, bond issues in the amount of CHF 10 million were redeemed on the market and offset against the nominal amount of outstanding borrowings. The resultant financial income of CHF 0.4 million was credited to income.

As at the balance sheet date, the bond issues and fixed-rate mortgages are recognised as follows:

CHF million	Effective interest	Issue amount	Nominal amount ¹	Book value As at 30.06.2020	Fair value as at 30.06.2020	Book value as at 31.12.2019	Fair value as at 31.12.2019

-0.35% bond issue 2020–15.01.2021 ²	-0.34%	50.0	50.0	50.1	50.1	-	-
2% bond issue 2013–23.09.2020	2.12%	150.0	150.0	150.0	150.6	149.9	152.7
Fixed-rate mortgages	-	-	595.8	595.8	603.8	597.3	606.6

¹ The nominal amount is the issue amount net of redeemed bond issues

² Private Placement

During the period under review, CHF 0.1 million was spent on the amortisation of the issuing costs for the bonds (1st half-year 2019: CHF 0.1 million).

As at 30 June 2020, fixed advances amounting to CHF 292 million and fixed-rate mortgages amounting to CHF 595.8 million (at nominal values) are in place, all of which were taken out with Swiss banks, insurance companies or pension funds.

The average interest rate of all financial liabilities as at 30 June 2020 is 0.83% (31.12.2019: 0.88%).

During the reporting period, the contractual clauses (financial covenants) relating to minimum capitalisation (equity ratio, net gearing, interest coverage ratio and refinancing of properties) agreed upon with the lenders were complied with without exception.

13 Capital commitments, contingent liabilities and legal disputes

There are no purchase commitments, guarantees or sureties in favour of third parties. Beyond this, in the individual financial statement, Allreal Holding AG has issued guarantees and sureties amounting to CHF 284.4 million in connection with financing transactions with third parties on behalf of individual subsidiaries (31.12.2019: CHF 246.5 million).

As at 30 June 2020, there are no pending legal disputes of a nature liable to have a significant impact on the asset and income situation of Allreal Group for which no corresponding provisions are in place.

14 Events after the balance sheet date

On 6 July 2020, a property on Badenerstrasse 501–505 in Zurich Albisrieden was acquired at a price of CHF 31.5 million as part of the development real estate. The property is suitable for new residential construction with an investment volume of about CHF 61 million. Otherwise, between 30 June 2020 and 18 August 2020 (date on which the consolidated half-year financial statements were approved by the Board of Directors), no further events took place which would result in any adjustments to the book values of the assets and liabilities or which would need to be disclosed here.
